

THE GREETINGS OF THE STRATOS DMC MANAGER

In 2008 the “Vespa World Days” stop in Sicily, after the first edition has taken place in the San Marino Republic. An important meeting for all the region, that has won the competition of other important European destinations. It will deal with the motor meeting with the biggest number of participants in Sicily. This is a reason of pride for us organizers, the Sicilian Vespa Clubs, the Municipality of Cefalù, that has supported the event, and for the whole Sicily, which thanks to its hospitality, the natural beauty and the mild climate, has demonstrate to be able to organize big international events. We thank all the people who have trusted in our project and have us supported, in particular the “Vespa World Club” and the “Vespa riders” friends from the three continents. We thanks them for the long transfert, we welcome them and we wish they could spend with their Vespas some unforgettable days in the province of Palermo, but even in the other Sicilian places.
